Purpose of Workshop

- Share information about launch
 - Presenters will have the floor in the AM, open-mic in the PM
- Inform party comments on Petition For Modification submitted by Maas Energy
- Aim to build consensus and identify best path forward
- *We are not here to assign blame*

Goals of the SGIP

- SGIP Technologies must:
 - Reduce GHGs and criteria air pollutants
 - Lower or shift peak load to off-peak
 - Be safe and commercial available
- SGIP Technologies should:
 - Benefit society (per Societal Total Resource Cost test)
 - Attain market transformation or demonstrate the possibility of becoming self-sufficient

SGIP Statutory Requirement

Section 379.6 of the Public Utilities Code (a)(1)

“It is the intent of the Legislature that the self-generation incentive program increase deployment of distributed generation and energy storage systems to facilitate the integration of those resources into the electrical grid, improve efficiency and reliability of the distribution and transmission system, and reduce emissions of greenhouse gases, peak demand, and ratepayer costs.”

“It is the further intent of the Legislature that the commission, in future proceedings, provide for an equitable distribution of the costs and benefits of the program.”

SGIP Potential Options

1. Focus on future improvements
 - Results stand as they are, focus on lessons learned to improve SGIP and ensure equity and achievement of program goals
2. Cancel the results of the Feb. 23rd solicitation
 - Repeat solicitation at later date under revised SGIP
3. Modify the results of the Feb. 23rd solicitation for more equitable distribution
4. Others options?
